

## Sponsorship Opportunities

Sponsorship at the 2017 IUFRO All-Division 5 Conference provides a multitude of opportunities for organizational exposure and networking with leading scientists, industry, civil society, and government representatives from around the world. Organizations will be promoted to over 500 participants thus opening the door for collaborators and supporters.

The theme of **Innovation and Sustainability** will form the unifying basis for a week-long conference where plenary, technical and special sessions will catalyze the discussion on what the future forest products sector might look like. The daily keynote presentations will feature talks by a combination of cutting-edge researchers and pragmatic practitioners.

**Our Sponsors** will be eligible for the sponsorship plan benefits listed below. We also anticipate working with sponsors to adjust the sponsorship packages to meet their specific needs.
